# The World's Wonders

STRANGE THINGS FOUND IN VARIOUS PORTIONS OF THE EARTH

## Crosby Hall Transplanted

In spite of efforts to preserve it on its original site in Bishopsgate, London, the famous Crosby hall was removed from the city some three years ago. It has just now been re-erected, as far as possible exactly as it was before, in More's garden at Cheisea, on the site of Sir Thomas More's country house, where he entertained Henry VIII. The position is peculiarly appropriate, gince Sir Thomas More also at one time resided in Crosby place, Bishopsgate street. Crosby hall will now form part of the new University hall residence. All the stone and wood in the building was marked, numbered and replaced in the same positions. Crosby hall was built by Sir John Crosby, grocer and wool merchant, in 1470, and at that time was the highest house in London.

### TRAPPED BY HIS WHISKERS

An odd little adventure, more humorous than tragic, happened in a hotel at Scattle the other day, the victim being a guest from Salt Lake City named Morris Stelgers, who rejoiced in the possession of a twenty-eight inch growth of flowing whiskers.

As Katie Merrill, who handles the linen on the top floor of the hotel was tripping down a hallway she saw apparently hanging from a door knob what looked like a woman's switch. It was gray and fully twenty inches

peculiar place for a switch!"

Then Katle looked closer and discovered that the bunch was held fast in the door jamb. With a pass key she opened the door, when Stelgers toppled backward very much exhausted, but once more a free man.

Steigers, while writing a letter, had felt a draught and gone to the door to close it. A gnest of wind wafted his whiskers outward and they were caught when the door slammed. It seen by travelers in some parts of was a catch lock and he was held a Mongolia, notably in Hats, are what prisoner for over an hour because he have the appearance of wooden pagecould not unlock the door, and he did das or small Elffel towers, in the not wish to lose his much-treasured streets. They are in reality the stock patriarchal beard.

### ELEPHANT STEALS A RING

Alice, the well-known elephant of the Bronx Zoo at New York, got into trauble the other days but whether she will be arrested like any other common malefactor remains to be seen. While a visitor named Miss Elleabeth Morrell was surrentitiously feeding Alice, the animal's eager trunk detached the diamond ring from her nuger.

A search did not discover the ring and it is presumed that Alice swallowed it under the impression it was a particularly hard shelled peanut. Alice is esteemed to be worth more than the ring, so that it is unlikely there will be any interesting surgical

## KILLED HAWK WITH A STONE

Robert Bowning, who lives in Orwell township, Bradford county, Pennsylvania, threw a stone with such unerring aim that he struck and instantly killed a hawk perched on a limb of a tree thirty feet from the ground. the wing to tip of the wing.

### TROUT WITH A PITCHFORK

Think of finding big speckled mountain trout in such clusters that you could throw them out of a stream with a pitchfork. Many people have tossed little candlefish or some other varieties which run in schools out of the ocean when a whale drove them on the beach, but the experience of throwing out trout in that manner is rare. You can do it for a day or two almost every summer in a lake far back in the Cascade mountains in road near the summit of the Cascade

This lake was called Fish Lake by the first white men who saw it because fish were so plentiful in its waters. Splendid mountain trout can be caught there in large numbers on any good fishing day.

goes dry almost every summer. The keeps people away. Consequently the are the Highwaters?" The lake is wide and shallow and ter of the lake's bed. Into this stream the fish crowd and for a day or two marshy ground beside the stream and to you.

on the ground to dry and become sea-FIT CURES A DEAF MUTE

plie their axie-trees up pyramid-like

John Driscoll, an ex-saflor living in St. Helens, Eng., who had been bereft of speech and hearing for eight years, has been suddenly restored to both these faculties in a remarkable manner. "A queer feeling came over me Saturday night," he told a doctor after the occurrence. "I stood up but became so dizzy that I fell, and re- hig printing office, save in the engine membered nothing for some time.

"I have been told since that I was pots. so violent that It took five men to hold me down. They tell me that I struggled and shouted, and they became very much alarmed. After that I calmed down again.

"I still felt queer, but I could hear them telling me that I could speak. It all seemed like a dream to me, I went hot and cold in turns, and I felt as weak as a child. But O, the joy and wonder of myself and friends after the strange fit had passed, when I found that my long lost faculties had been so miraculously restored."

While at Bermuda in 1901 Driscoll had an attack of yellow fever, and the new from the old. when he recovered twelve months afterwards he found that he could nelther speak nor hear.

### PET DOG USES TOBACCO

People who assert that tobacco will kill a dog, horse or pig will be surprized to learn that the pet Boston terrier owned by F. H. Smith of Norway. Me., chews tobacco and enjoys it together with an abundance of good health. The dog is a finely bred animal, and does a number of tricks. He has used tobacco several years. One day when Mr. Smith threw away "quid" he was greatly surprised to see his pet pick it up and awallow it. Fearing that the dog would suffer he ade an effort to remove the tobacco rom its stomach, but without avail. The dog showed no ill effects from use of the "weed" and watched Mr. Smith when he placed another "chew" In his mouth. When this was thrown away the dog seized it as before and then began a strange habit that has lasted several years. Inseparable companions, the dog and his master enloy many hours together and the dog barks happily when his accustomed allowance of tobacco is thrown to him. The dog's special pleasure is when his master will cut a bit of un-chewed tobacco from the plug for his benefit.

### HUNT FOR MAMMOTH BONES

found sticking out of the cliffs there layer by trade, the other day and identified as having once adorned the jaw of one of these Inid, "and I'm out of work." prehistoric monsters. The tooth foot long and nearly four inches thick. It indicates the presence near by of nammoth remains bigger than any hitherto found, although quite a number of these antediluvian relics have been discovered in the neighborhood from time to time. The finder, a local surveyor, values the tooth at more than \$25, and it will probably be in trade of the local cartwrights, who I placed in the British Museum.

## Roman Ferry Boat Found

While workmen were making excavations the other day for a new county The hawk measured three feet and hall at Lambeth, London, they dug up the remains of a Roman ferry boat, of eight and one-half inches from tip of oak, black with age and almost rotted away. The boat has a flat bottom, is 16 feet wide and has a depth of 1 foot 9 inches.

with scoops. Fish Lake is fed by streams flowing direct from mountain snow, so the fish in it are first class. A stream deep body of water three-quarters of a mile away, and as this lake is alstream insures a good supply of trout in Fish Lake. ## Fire Drill in the Big Printing Shop

The word was passed around among amateur firefighters of the government printing office one afternoon recently. The fire brigade is said to consist of about a dozen laborers.

Really there was no fire about the

Some one high in authority at the printery had read a newspaper ac count of a disastrous conflagration in the west. The story of the blaze put the notion in his head to resurrect a "general order" of several years' standing which provides for a fire drill at intervals.

It was near to the hour for closing fown "the works," 4:30 o'clock, when the edict went forth that the fire brigade was to assemble quickly and from the new building attack an imaginary configuration in the old struc-

Upon the receipt of the order from the orders in cool, confident tones,

ected with fire plugs in the new building. Nozzles were aimed at the venerable structure across Jackson alley. As the streams of water began to play and the spray was rising in clouds, like the mist from Niagara Palls, the printers, bookbinders, wo man folders and other workers began to file out of the buildings.

There is an order that the exit of the workmen and workwomen must be through the side doors along the alley and G street. Consequently, as the head of the line of workers reached the doors on the alley and witnessed the deluge of water crashing room furnaces and under the smelting against the walls of the old building and flying buck in foaming masses, they tried to force thier way back into the new structure.

Hundreds of toilers behind, not aware of the conditions in front, pressed forward and forced the front rank out into the alley and into the torrents of flying water. The ensued scene of excitement.

More than 100 employes, drenched to the skin and looking like drowning rats, yelled and fled precipitately from the merciless streams. The wet ones were naturally indignant at being "thrown overboard" in such a ruthless manner, as a compositor expressed it mre across the alley, which separates and hurried home to shed their wet garments.

In the summing up of the fire drill the front office the amateur firemen it was noted that about \$100 worth of got busy without delay. ## **GOT PHOTOGRAPH OF PANTHER**

Exciting Experience Which Few Members of the Party Care to Go Through Again.

A panther is not easily killed, and will often revive with very unpleasant results, as on a certain occasion in the Decean. He appeared to be quite dead and one of the spectators rushed up with a camera on a stand to obtain picture of the supreme moment. He got his photograph, and, strange to say, it survived what followed; but no sooner had he taken it than the panthere revived tore bimself loose, and went for the photographer. Somehow the man escaped, but the camera was sent flying, and, dis encounter with it, the panther turned and made for the nearest tree, up which he went as quickly as a monkey. Now, the tree was crowded with interested spectators, and for three or four strenuous seconds (until the panther was shot) we enjoyed a spectacle of natives dropping to earth with loud thuds like ripe plums from a jungle tree as the panther approached

## Well, Wasn't He Right?

Waiter—I am positive, sir.

The minister was addressing the Squeamish Guest (putting it to his Sunday school. "Children, I want to lips)-But it seems to taste pretty talk to you for a few moments about one of the most wonderful, one of the Waiter-That's because it's hard most important organs in the whole world." he said. "What is that that throbs away, beats away, never stopping, never ceasing, whether you wake or sleep, night or day, week in and week out, month in and month ut, year in and year out, without any olltion on your part, hidden away in the depths, as it were, upseen by you, throbbing, throbbing rhythmically all your life long?" During this pause for oratorical effect a small voice was
